▶ The Markham Love Seat holds center stage in this menagerie of color by **Mr. Brown**.

▼ Solid brass star-shaped hardware pops against a sea of blue in the **Alden Parkes** Starward Cabinet.

▼ Amid this amazing room by **Worlds Away**, their Campbell Chairs in lime green grab the spotlight.

▲ A simple bolster arm bench made amazing in lime green velvet by **Worlds Away**.

The eye is drawn to color — brash turquoises, fire-engine reds, vibrant apple greens — a welcome wealth of saturated hues.

▲ **John Strauss Furniture Design** finished the Green Bay Road Nightstand in luscious persimmon; resistance is futile.
