

Finishing Touches

FROM SHIMMERING SURFACES TO THEIR MATTE COUNTERPARTS, THESE FABULOUS FINISHES COMPLETE THE LOOK. BY NANJI THEORET

MIXED MEDIA

A gold finish ups the glam factor on Mariana Home's **pendant chandelier**, framing white milky art glass for soft lighting. Available for \$2,390 at Wilson Lighting.

THE WRITING ON THE ... TABLE

A highly polished acrylic finish and the swirls of colors on the top of Aiden Parker's **Graffiti cocktail table** create a painterly agate look. Available with a stainless steel- or brass leaf-finished base. Available for \$2,907 through your interior designer.

STROBE GLOBE

Crystonara's **Genesis pendant** looks like a disco-era strobe but without the annoying flashing. Instead, facet square-cut crystals embedded in metal squares cast soft light. The orb also features a distressed Twilight finish of gold and silver leafing. Available for \$675 at Lighting First, Naples.

OPTICAL ILLUSIONS

An aged bronze finish provides the foundation for optic-molded textured blown glass, an ancient technique developed by Roman glassworkers. Each of the eight glass bulbs on Hudson Valley Lighting's **Breton chandelier** showcases the optical impact—clear on the outside with a wavy pattern inside, a look valued in heritage pieces such as Depression glass. Available for \$2,064 at Ferguson, Naples and Fort Myers.

IRON SIDE

Troy Lighting's Eastern-influenced **Ironed Kokoro pendant** is fashioned from hand-worried iron, creating an open, woven texture. Its exterior Kokoro bronze finish is complemented by a polished brass interior. Available for \$1,047 at Wilson Lighting.

**ELEGANT '80S
STYLE**

Ladies of a certain age may recall wearing earrings (along with big hair and shoulder pads) similar to Corbett Lighting's 1980s postmodern-designed **Spinner** sconce. Characteristic of the Me Et's with its playful mix of materials and finishes, intersecting lines and contrasting shapes, the Spinner combines textured Venetian glass, stainless steel and a gold-leaf triangle that channels the nemesahe sal. Available for \$585 at Naples Lamp Shop.

**MOJITOS ON THE HOUSE**

Native Trails shines up its **Mojito bar/ prep sink** with a new polished copper finish with subtle hints of popular rose gold. Available for \$955 at Broadell Plumbing, Fort Myers.

GOOD AS GOLD

Wood carved in radial lines creates a sunburst effect that's enhanced by the gold finish of Broadburn Gallery's **Gilded cabinet**. You'll find it at Naples Lamp Shop for \$2,199.

**BE-SPOKED**

Broadburn Gallery adds a serious edge to the typical **sunburst mirror**, incorporating acrylic spikes and brass accents. Look for the 26-inch must-have accessory to hit stores, including the Naples Lamp Shop, this month. Available for \$723.

MOSAIC MADNESS

Angela Lottia of Angela Fine Furnishings in Naples says mosaics are red-hot right now. Case in point: French Heritage's hand-laid **mosaic tables** in a dainty 25-inch-tall design with a 12-inch top, perfectly sized for cocktails. Available in several patterns with silver-leaf and copper finishes on a wrought-iron base. (The Rose pattern with silver leaf is shown.) Available for \$1,095 at Angela Fine Furnishings.

**PARCHMENT
PERFECTION**

Alden Parker's **Carbon cabinet** introduces one of the most unexpected finishes: wilium drawer and door fronts in a right-now soft gray. Equal parts industrial and artisan, the cabinet has a supple, hand-veneer-finished top and sides in a rich warm gray-brown Mystic Linbar finish with silver highlights. Available for \$2,907 at Cottage & Loft, Fort Myers.
